REASONS FOR ALLOWANCE

1. This Office Action is responsive to the Amendment filed on 6/5/06.
2. Claims 13, 14, 16 and 17 are allowed.
3. The following is an examiner's statement of reasons for allowance:

-Regarding to independent claim 13, Ito in view of Hayakawa and Howell et al teaches the claimed invention except Ito in view of Hayakawa and Howell fails to teach procedures of calculating a probability of detection of the first coded signal; and changing the first coded signal to a second coded signal having a second rate that is higher than a first rate, in response to the probability of detection of the first coded signal exceeding a predetermined amount. In Ito in view of Hayakawa and Howell, the first coded signal is changed to a second coded signal having a second rate that is higher than said first rate, in response to a probability of detection of the first coded signal being lower than a predetermined amount. It would not have been obvious for one skilled in the art to implement either one of Ito, Hayakawa and Howell et al or a combination of them with other prior art of record for leading such the implementation to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
